## KWWOA: Serving its Members Since 1958

### What Are You Waiting For?

The Kentucky Water & Wastewater Operators Association (KWWOA) is an organization for drinking water and wastewater system operators and always will be, but it is so much more as well! KWWOA, which began in 1958 with the formation of the Western Chapter, quickly spread across the state, with the formation of three more Chapters by 1960.

Articles of Incorporation were filed in September 1966 and the early Constitution and By-Laws were adopted and approved in February 1967 to form KWWOA's predecessor, "The Kentucky Water and Sewage Operators Association, Inc." As stated in the Constitution, the group was formed *"to promote the science and practice of water and sewage treatment and handling; to promote cooperation among the membership, institutions of learning, and public health agencies; to protect the tenure of service of operators by means of progressive certification or licensing; and to enable each Kentucky community to benefit from the experience of others, thus making Kentucky a better and more sanitary State in which to live."*

While our name was later changed, KWWOA still believes in the key tenets referenced above: scientific practices, cooperation and the certification of operators such that the communities that we live, and the state as a whole, remain a safe place in which to live. These tenets are

why KWWOA dedicates most of its efforts to providing training on science based topics, so that certified operators may safely and effectively utilize this information for the production, conveyance or discharge of waters that meet or exceed state standards.

KWWOA also recognizes that we are part of a larger community which must cooperate and work together toward the same goals. As a result, membership is offered to all utility employees and to "associate" members, who are active in or interested in the industry, such as engineers, manufacturers, suppliers, etc.

Recognizing the importance of precise and accurate data for the operation of drinking water and wastewater systems, KWWOA formed a committee which also offers membership and a voluntary certification, for drinking water and wastewater lab analyst. The certification is based on qualifications and exams supplied by the Association of Boards of Certification, an association of over 100 certifying authorities, of which the Commonwealth of Kentucky is a member, to foster water and wastewater certification throughout North America. We actively work with the Department for Environmental Protection and other state agencies to identify and incorporate information into our training, that they believe utility systems need to be aware of as they work to maintain water quality. By working with our members and the

**56th Annual Water and Wastewater  
Operators' Conference**

**Operators: Making A Difference Every Day!**

**Check Inside For Details**

## KWWOA Continued

regulatory community on this common goal, we not only promote and support the professional status of its certified members, but promote the health of Kentucky's citizens, visitors and environment, now and for the future.

The benefit of a KWWOA membership is not only in the items above, but in the cost per member. KWWOA's membership is open to the operator of a package wastewater treatment plant for a small mobile home park to the largest drinking water treatment plant in the Commonwealth, and as such we strive to keep the membership and associated fees as low as possible. What does \$30 buy in this economy? Not much in most cases, but at KWWOA it provides:

- A membership in one of its four Chapters, allowing operators to connect with other local facility operators which may serve as a knowledge base and/or equipment resource.
- Access to 120 plus hours of relevant training annually that is either free or at a very low cost. During 2013, KWWOA already has 13 classes planned throughout the state, with 11 of those being free to its members. Non-members may attend too and in most cases pay less than \$5 per contact hour.
- Low cost Annual Conference (see pages 4-8 for details) that provides operators with up to 18 contact hours, access to product and service information and networking opportunities with other industry professionals. Without considering the meal nor

social function cost, the \$140 member Conference price equates to less than \$8 per hour of training.

- All classes are submitted to the KY Boards of Certification for approval as continuing education for license renewal purposes and the operator hours are reported as earned.
- Bi-annual newsletter (H2Outlook) and website that serves as an information resource/depository for industry information.

If you or your staff could benefit from what KWWOA has to offer, we urge you to become a member. KWWOA needs forward thinking individuals as members that are actively involved and committed to the profession and protection of our drinking water and environment. If you have questions about KWWOA, we invite you to browse our website at [www.kwwoa.org](http://www.kwwoa.org) or contact our Member Services Director, Lisa Detherage, at (502) 352-0510 or via email at [kwwoa@fewpb.net](mailto:kwwoa@fewpb.net). To pursue membership, you may file an application on the website, or by submitting the hard copy application found on page 11 of this newsletter.

Do not pass up this opportunity to partner with environmental professionals across the state to strengthen the operator profession and protect Kentucky's citizens and the environment! Join now and take advantage of all KWWOA has to offer! We look forward to hearing from you in 2013!!!

## KPDES Facilities Get Ready for NetDMR\*

In the age of the Internet, it's no surprise that the U.S. Environmental Protection Agency (EPA) has mapped out a nationwide plan to move to electronic reporting for NPDES facilities. The National Pollutant Discharge Elimination System (NPDES) program permits wastewater discharges as required under the Clean Water Act. In Kentucky, the Division of Water (DOW) is responsible for administering the KPDES program. An essential part of any KPDES permit is the Discharge Monitoring Report or DMR. DMRs are a self-reporting tool that helps determine compliance with permit conditions and assess the quality of the wastewater discharge. This DMR data is housed in the EPA's Integrated Compliance Information System (ICIS) and available to the public via the EPA's Enforcement and Compliance History Online (ECHO).

With the EPA's announcement that regulations would be developed requiring transition to an electronic reporting system for DMRs in early 2014, Kentucky was quick to take action. Now fully deployed for NetDMR, the national EPA tool for electronic reporting, Kentucky is actively notifying and educating facilities on the use of the new system. DOW anticipates having 100 percent of KPDES facilities transitioned by mid-2014. With more than 10,000 facilities currently permitted, this is no small task for DOW. A combination of online tools, classroom training and working through the trade associations are being used to assist systems with the transition to the new electronic system. KWWOA is assisting in the effort by inviting staff from the Divisions of Water and Compliance Assistance to participate in various Chapter training events across the state. Representatives from the Department have already conducted training sessions for three of the four KWWOA Chapters and we hope to continue this effort in 2013, such that all certified operators and permit holders are prepared.

Why transition to an electronic system? NetDMR will allow for a reduction in paperwork, improve data quality, allow for more timely data processing and increase data accessibility. All in all, it allows for DOW and permitted facilities to become more efficient at DMR submittals and reviews. For many facilities, it may actually decrease the probability of being cited for minor data errors seen on traditional paper DMRs.

In the next year, current KPDES facilities can expect to see changes in permit language relating to NetDMR submission in their KPDES permits. These changes will be made on any new or renewed individual permits and for any newly issued general permits. For all other facilities, DOW will be sending out notification letters specifying the date for mandatory transition to NetDMR.

The Division of Compliance Assistance (DCA) has been working with DOW on outreach and education relating to NetDMR. DCA advises facilities not to wait until the last minute to transition to NetDMR. Facilities should go ahead and start talking to management and other entities, such as laboratories, about NetDMR and coordinating efforts. For those who want to practice with NetDMR, DOW has a test site that gives facilities a secure environment to learn and practice submitting DMR data electronically before officially submitting via NetDMR.

For more information on NetDMR, you may visit <http://water.ky.gov/permitting/Pages/netDMRInformation.aspx> or contact the Division of Compliance Assistance via email at [envhelp@ky.gov](mailto:envhelp@ky.gov).

## Operators: Making A Difference Every Day!

### 56th Annual Water and Wastewater Operators' Conference Galt House Hotel & Suites, Louisville, KY April 14–18, 2013

Believe it or not, the 56th Annual Kentucky Water and Wastewater Operators' Conference, **"Operators: Making a Difference Every Day!,"** is only a few months away. KWWOA is working diligently to plan a program that will benefit all attendees and allow for networking opportunities. As in the past, attendees will be able to attend up to 18 hours of training during the Conference. Approval of the program will be solicited from the Kentucky Boards of Certification and Dr. Pass, for lab analyst, as well as the State of Indiana. All documented training hours will be forwarded to each entity shortly after the conclusion of the Conference.

KWWOA polled our members to solicit ideas on the training topics that they wanted to hear about during 2013 and many of these will be incorporated into the Conference program or Chapter trainings throughout the year. Last year, we also tried some different training styles and because of the warm response received, we will once again hold a "Scavenger Hunt" in the Exhibit Hall for each of the four major disciplines (Water Treatment, Water Distribution, Wastewater Treatment and Collection). During each of these, participants will be given a set of problems that they must solve by meeting with a predetermined group of Exhibitors. Once each vendor booth has been visited, the operators must then answer the questions posed and discuss these with their group and facilitator. We found that this event provided a multitude of benefits outside the technical information presented, in that attendees were able to practice their communication and problem solving skills, gather product information and establish valuable vendor and operator contacts. Also in the works, are equipment demonstrations for distribution and collection system operators. For operators who work within the treatment arena, we have arranged tours of the Hite Creek Wastewater Treatment and Crescent Hill Water Treatment Plants. Not to be left out, we will also offer a 6-hour industrial and lab analyst training series. KWWOA will also partner with KLA and the Division of Compliance Assistance to provide training and testing for lab analyst, Distribution and Wastewater Treatment Certification.

While the Annual Conference is meant to provide attendees with information that will increase their operational knowledge, it isn't all about work. On Monday, the opening breakfast will include a KWWOA Business Meeting and Awards Ceremony which will recognize KWWOA members and facilities that "Make a Difference Every Day." Monday will close with a Welcome Reception in the Exhibit Hall and then interested attendees may catch a bus to the Horseshoe Casino for dinner and an opportunity to strike it rich. If this isn't your cup of tea, you may visit with friends and/or take in the many attractions offered by the City of Louisville.

On Tuesday, the Exhibit Hall will once again be open and we encourage attendees to take advantage of the continental breakfast and lunch provided. This also offers attendees one last opportunity to visit with our many vendors to see how they can make your job easier. On Tuesday evening, make sure you have an early dinner so you may attend the KWWOA Comedy Club, for a performance that is sure to entertain.

Wednesday is the closing day of the Conference, but it is not one to miss! The day will be action packed with a lot of great speakers, as well as the Distribution and Collection System equipment demos and the Facility Plant Tours (don't forget to sign up at the Registration Desk as space is limited).

KWWOA's Conference is designed solely with the needs of our members and the environmental community in mind. We strive to provide topics that increase and/or refresh your operational knowledge while providing continuing education hours for license renewal, all for the low member price of \$140.00. Details on how to register for the Conference, hotel information and a general schedule may be found on pages 5–8 of this newsletter or by visiting the "Conference" tab on our website at [www.kwwoa.org](http://www.kwwoa.org). We hope you choose to "Make a Difference" and join us for the **56th Annual Water and Wastewater Operators' Conference!**

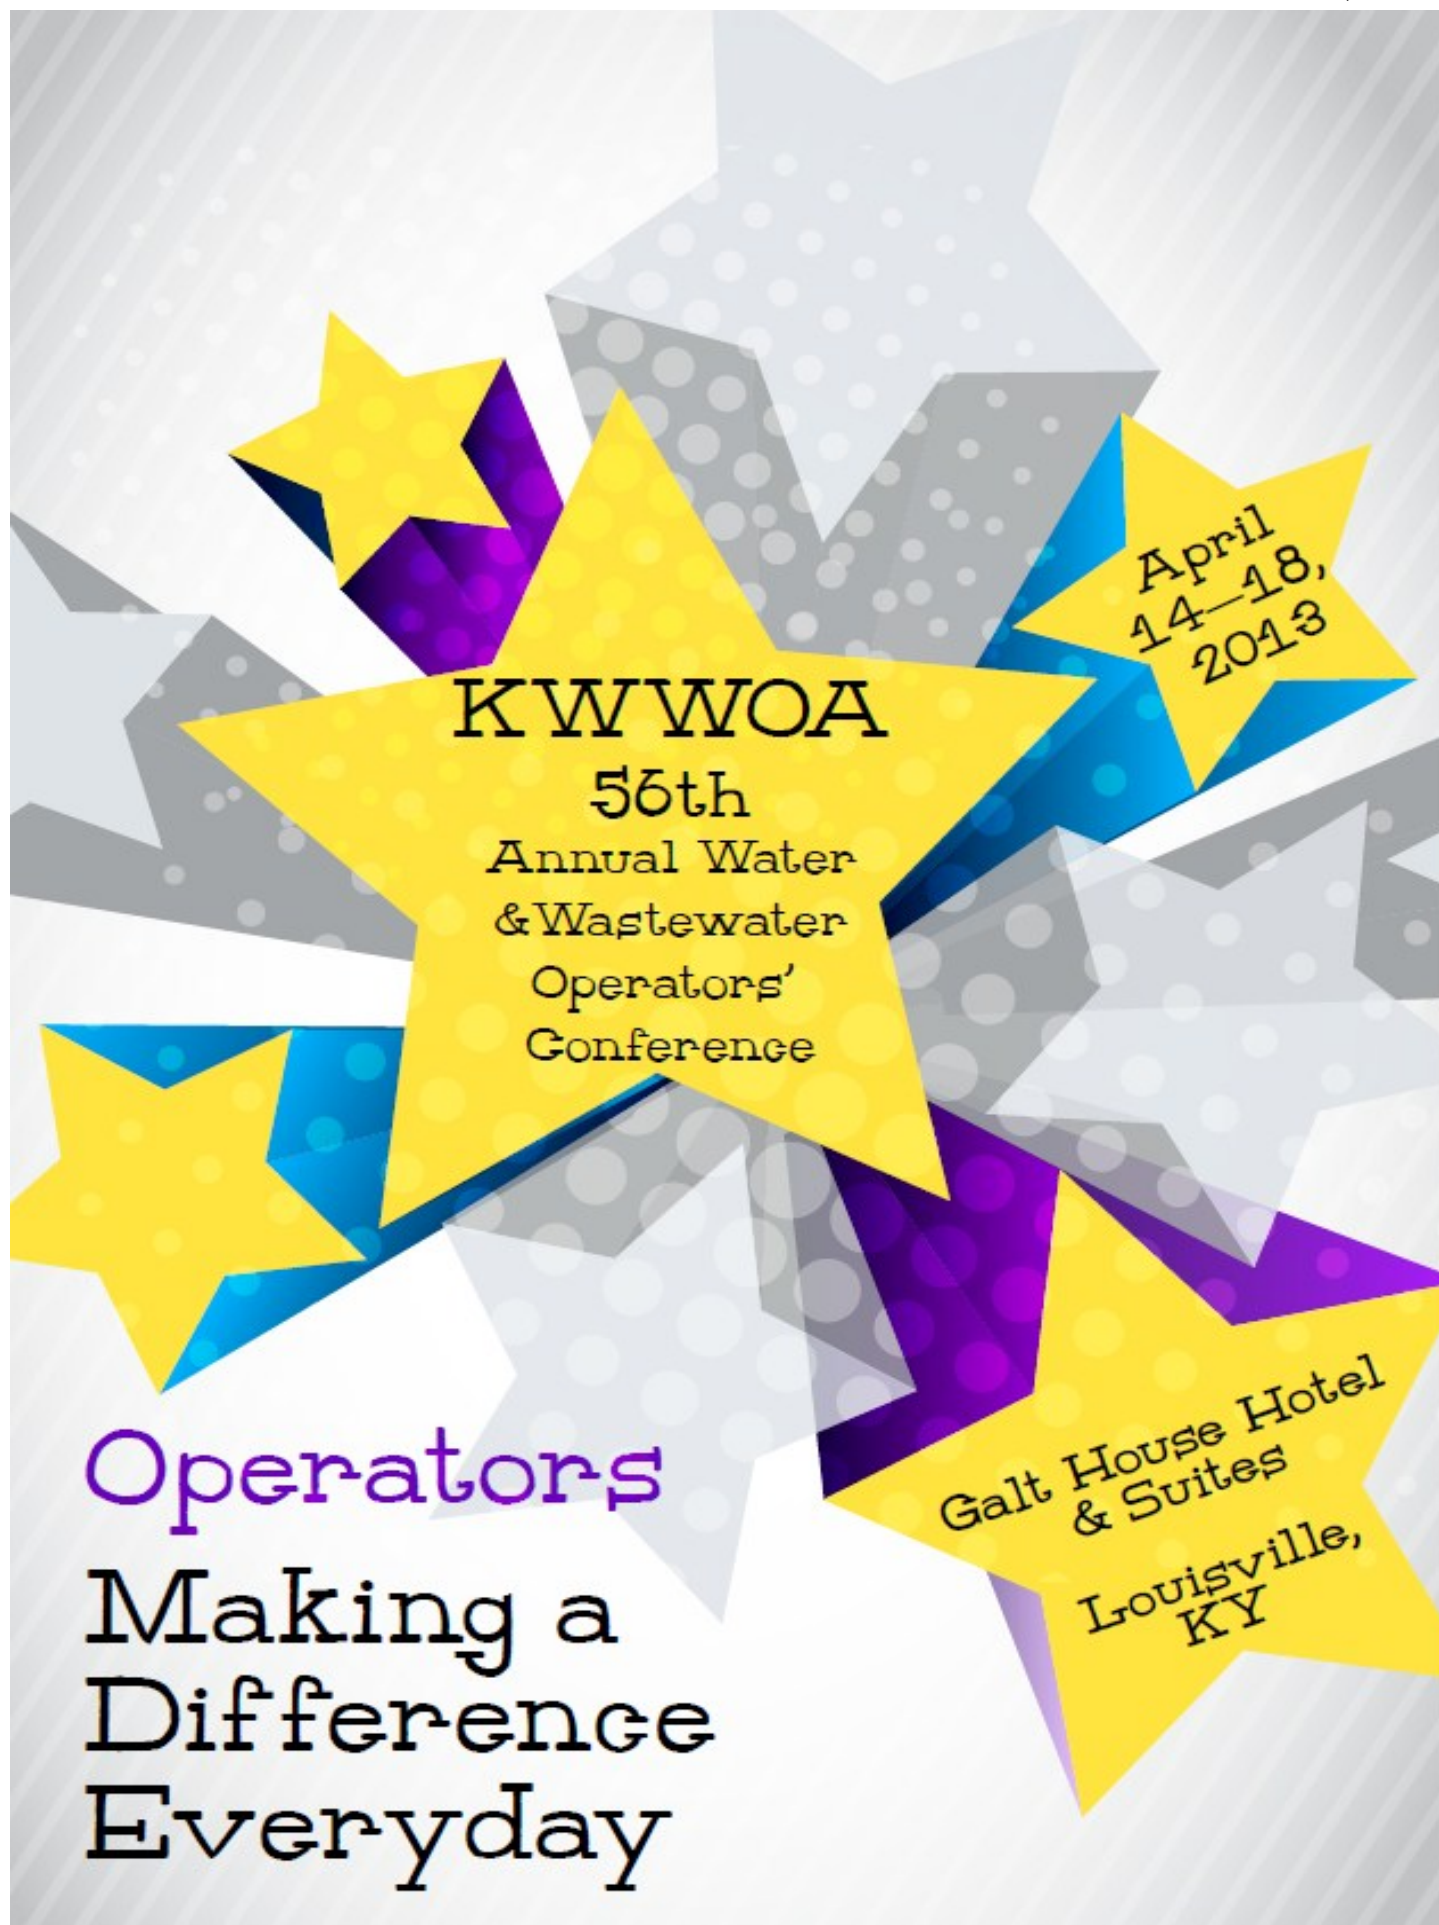

#### DCA Welcomes a New Team Member!

This past summer the Division of Compliance Assistance welcomed a new employee, Jacob Cuarta, as their newest drinking water and wastewater certification trainer. Jacob was raised in Tampa, Florida, but received both of his degrees from Western Kentucky University; an undergraduate degree in environmental health and master's degree in public health. Jacob says he is most excited for the new experiences he will have here, working for state government and doing anything to help environmental protection.

On weekends, you can find Jacob almost always outdoors or cheering on the University of Kentucky, the Tampa Bay Buccaneers or New York Yankees. According to Jacob, the best part of Kentucky is the friendly people. One of his preconceived notions was that there were only farms in Kentucky, which he says quickly changed.

KWWOA is also working hard to show Jacob that there is more to Kentucky, by introducing him to our dedicated members. Jacob joined us at Central's Rough River School and E/NC's October training in Lexington. We appreciate Jacob's contributions thus far to the operator community and look forward to working with him in the future!

# 56th ANNUAL WATER AND WASTEWATER OPERATORS' CONFERENCE

## WHO SHOULD ATTEND THE 56th ANNUAL OPERATORS' CONFERENCE?

This is a "must attend" event for individuals requiring up-to-date information for the operation of drinking water and wastewater systems and labs. KWWOA's 56th Annual Conference will provide access to over 80 technical sessions and an opportunity to network and exchange information with numerous exhibitors and fellow operators. Operators may earn up to 18 continuing education hours by attending each six-hour day of classes. All technical sessions will be submitted for approval to the Kentucky Boards of Certification of Water Treatment, Distribution and Wastewater System Operators for license renewal purposes. Documented training hours turned in at the conclusion of the Conference, will be provided to the appropriate entity for operators and lab analyst, as verification of training hours earned.

## HOW DO I REGISTER TO ATTEND THE CONFERENCE?

Registration for the Conference can be accomplished by completing the "Registration Form" on the following page or online at [www.kwwoa.org](http://www.kwwoa.org). If completing the registration form on the following page, be sure to include payment with the form. If registering online, you may pay with a credit card, bank draft, or debit card, by simply following the PayPal instructions provided. Conference Registration includes all technical sessions, exhibit hall admittance, breakfast day one and two, lunch on day two, and all evening social activities. If you plan to take a certification examination, do not register in either of these manners. See the information below under "Wastewater Treatment, Distribution And Laboratory Analyst Exams."

## CONFERENCE HEADQUARTERS AND LODGING RESERVATIONS

The 56th Annual Kentucky Water and Wastewater Operators' Conference is being held at the Galt House Hotel and Suites, Louisville Kentucky. A block of rooms is being held through March 14, 2013, so make your reservation early to ensure availability. Reservations can be made by visiting the KWWOA website at [www.kwwoa.org](http://www.kwwoa.org), clicking on the "State Conference Information" link and selecting the "Galt House Hotel Reservations" button. Reservations can also be made by contacting the Galt House directly at 502-589-5200 (be sure to reference the Conference to receive the room rate provided). The rate below includes parking and internet access within your sleeping room.

Galt House Hotel & Suites  
 Suites Tower—\$144.00 Flat Rate      Rivue Tower—\$134.00 Flat Rate  
 (Check In—3:00 PM, Check Out—11:00 AM)

## WHAT IS INCLUDED IN MY CONFERENCE REGISTRATION FEE?

Full registration includes access to all training sessions, exhibit hall, breakfast (Monday and Tuesday), lunch (Tuesday), and access to all evening social functions. All of this is included for the KWWOA member price of \$140. or the non-member price of \$170. (which includes a 2013 KWWOA membership). Note: Attendees who drive in and park in the Galt House lot will be asked to pay a daily rate of \$7 upon presentation of a coupon that you may pick up from the Conference Registration Desk.

## WASTEWATER TREATMENT, DISTRIBUTION AND LABORATORY ANALYST EXAMS

Certification review sessions/exams will be held during the Conference for wastewater treatment and distribution personnel. Registration procedures for these exams are outlined on the Division of Compliance Assistance website. Certification Applications and Registration Forms are also available by contacting the Certification and Licensing Branch at (502) 564-0323 or online at [dca.ky.gov/certification](http://dca.ky.gov/certification). Applicants must be approved in advance for testing and will be notified in writing by the Certification and Licensing Branch of their acceptance into the review/exam sessions. NOTE: Certification attendees are granted a partial Conference Registration which entitles them to attend all day-time events in the Exhibit Hall. If you wish to attend the Monday breakfast or evening activities, you may pay for these events at the Conference Registration Desk. Do not complete this form as an attempt to register for a Division of Compliance Assistance certification examination.

KLA will also offer a certification review/exams for Wastewater and Drinking Water Laboratory Analyst. These are voluntary certification programs sponsored by KWWOA and utilize exams prepared by the Association of Boards of Certification. If you are interested in testing, you may view the qualifications, register and submit an application online via the "KLA" tab at

# 56th ANNUAL WATER AND WASTEWATER OPERATORS' CONFERENCE

County: \_\_\_\_\_ Email Address (Home or Business): \_\_\_\_\_

Are You A 2013 Member? ☐ Yes ☐ No Prefer to receive KWWOA information at: ☐ Home ☐ Work

### IMPORTANT NOTE: THIS FORM MUST BE COMPLETED IN ITS ENTIRETY

Registration includes: Technical Sessions, admittance to the Exhibit Hall, Breakfast—Day 1 & 2, Lunch—Day 2, and all Social Events.

☐ Pre-Registration for 2013 Members — Select this box only if you have paid your 2013 dues \$140.00

☐ Pre-Registration for Non-Members (includes Membership) \$170.00

#### Registrations after March 1, 2013:

☐ Registration for Member \$190.00

☐ Registration for Non-Member (includes Membership) \$220.00

#### Other Options:

☐ I plan to test for Wastewater and/or Drinking Water Laboratory Analyst certification (Attach a completed KLA Application which can be found on the KWWOA website, [www.kwwoa.org](http://www.kwwoa.org)) +\$100.00

☐ I plan to attend the Horseshoe of Indiana Casino Trip scheduled for Monday evening, April 15 (Cost is included in the conference registration fee).

☐ I will have a guest attend the Horseshoe of Indiana Casino Trip - Name: \_\_\_\_\_

TOTAL REGISTRATION FEE INCLUDED (One check may be submitted for multiple registration forms): \$ \_\_\_\_\_

Name of Payee if different from the Registrant above: \_\_\_\_\_

Submit a copy of the Registration Form(s) and the appropriate payment, made out to KWWOA, to the following address:

KWWOA, P. O. Box 700, Lawrenceburg, KY 40342

No Refunds issued after March 15, 2013.

Anyone registering online will receive an email confirmation. Those registering via regular mail will not receive a confirmation, but may log into their KWWOA account to confirm receipt of the order.

FOR INFORMATION, contact Lisa Detherage at (502) 352-0510 or via email at [kwwoa@fewpb.net](mailto:kwwoa@fewpb.net).

## Tentative Conference Agenda

(Final Times May Vary Slightly)

### Sunday, April 14, 2013

3:00 PM — 5:00 PM Registration, 2nd Floor, Suite Tower

### Monday, April 15, 2013

6:30 AM—5:00 PM Registration  
 7:00 AM — 8:00 AM Breakfast—Archibald Cochran Ballroom  
 8:00 AM — 9:00 AM Opening Session, KWWOA Meeting & Awards Ceremony  
 8:00 AM— 12:00PM Vendor Set-up  
 9:15 AM — 4:30 PM Training Sessions  
 12:15 — 1:30 PM Lunch On Your Own  
 1:00 PM — 6:00 PM Exhibit Hall Open  
 4:30 PM — 6:00 PM Welcome Reception—Exhibit Hall  
 6:15 PM & 7:15 PM Buses Leave for Horseshoe Casino Trip

### Tuesday, April 16, 2013

7:30 AM — 8:30 AM Breakfast—Exhibit Hall  
 8:30 AM — 4:00 PM Training Sessions  
 12:30 - 2:00 PM Lunch in the Exhibit Hall  
 4:00 PM Exhibit Hall Closes  
 8:00 PM—1:00 AM KWWOA Comedy Event & DJ

### Wednesday, April 17, 2013

8:30 AM — 4:00 PM Training Sessions  
 11:30 PM—1:00 PM Lunch On Your Own

### Thursday, April 18, 2013

8:00 AM Certification Testing

### Vice-Chairman Ballots Are Coming Your Way!

In April 2013, Shaun Youravich will become the KWWOA State Chairman, vacating the position of Vice-Chair. In light of this upcoming Vice-Chair vacancy, KWWOA solicited nominees from the 2012 Membership for this position. Upon taking office, the Vice-Chair position will hold office from April 2013 through the 2015 Annual Conference and then the individual will step up into the Chairman's position for two additional years. All active member nominees are currently under consideration by the Nominating Committee for placement on the ballot.

Ballots will be mailed to all 2012 KWWOA members in early February. Upon receipt of your ballot, please mark your vote, sign the form and mail it to KWWOA for receipt by March 1, 2013. Please "Make a Difference" and take the time to vote in this very important KWWOA election!

### 2014 & 2015 KWWOA Annual Operators' Conference Site Selected

Crowne Plaza Louisville Airport  
 830 Phillips Lane  
 Louisville, KY  
[www.cplouisville.com](http://www.cplouisville.com)

#### Actual Dates:

April 6—10, 2014

April 12—16, 2015

**DCA Update:** The Division of Compliance Assistance has posted their 2013 Training Schedule on their website at <http://dca.ky.gov/certification>. This schedule reflects a change in that the four Collection Certification Schools offered have been expanded for all certification levels, from two to three days of training, with the exam following on the fourth day. The cost of the class and exam has increased to \$190, but this is due to the additional day of training provided. Questions regarding these classes may be directed to DCA at 502-564-0323.

## Hardin County Water District No. 2 Unveils Back-up Generator

### By Michele Best

When the state was hit by a devastating ice storm on Tuesday, January 27, 2009, it was "a wakeup call" for the officials of Hardin County Water District No. 2. The electricity went off, and the treatment plant at White Mills was unable to process water.

That call was answered by first purchasing a portable generator to keep pumping stations operating, and on October 11, 2012, district officials unveiled a new Caterpillar generator (picture included), that will keep the entire plant operating the next time the electric goes out. "This is a huge occasion for us", said General Manager James Jeffries. "We hope from this day forward, we will be in a better position should those elements batter us again".

Operations Manager Shaun Youravich said the new 1,000-k W unit will completely operate the water plant if electric goes out. Youravich praised the water treatment and distribution operators for their hard work in coming together to complete the project without any outside contractors. Operators installed all conduit, pulled all wire, formed & poured the concrete structure, made all electrical connections, and programmed the unit to run which resulted in a substantial saving to the water district and their customers. This project was a prime example of how operators can go the extra mile and make a difference!

\* It is the intent of the KWWOA to solicit approval from the Division of Compliance Assistance and the Kentucky Boards of Certification for approval of the hours referenced above prior to the class. Once the hours have received Board approval, a notice will be posted on the KWWOA website with information on the particular class. If you need these hours for renewal purpose, you should inquire ahead of time as to whether this approval has been obtained.

"Working Together to Preserve the Environment and Future of the Water  
and Wastewater Operator"

## Membership Application/Renewal Form

—Please check the appropriate boxes and print clearly—

Refer to the list of counties on our website at [www.kwwoa.org](http://www.kwwoa.org) to determine which Chapter serves your area.

☐ - Western

☐ - Central

☐ - North Central

**Active Membership** ☐ - By February 28, 2013.....\$30.00 ☐ - After February 28, 2013.....\$50.00

Active membership is designed for those who actually hold a valid water or wastewater license and/or who are employed in a water or wastewater utility. This includes pretreatment and/or lab technicians as well.

NOTE: Associate Members should not use this form as a separate Associate Membership Application Form exists.

☐ **Honorary Membership.....Free**

Honorary membership is designed for those who are retired from the water or wastewater field and held an active membership in the KWWOA during the previous calendar year. There is no fee for Honorary membership.

☐ **KLA Membership.....\$10.00**

Please make check payable to **KWWOA** and forward with the application to the address below. You may also elect to renew online, paying through PayPal at [www.kwwoa.org](http://www.kwwoa.org).
